

Why Wired?

QMotion QIS Hardwired shades deliver a robust and dependable control system. QIS offers three reliable methods of shade control allowing the user to control up to 200 devices on one system.

- Uses standard off-the-shelf Cat5e or Cat6 cables for both power and communications for the QIS
- Single or Double Wall Switches - fits in standard decorator wall plates
Power supply: 24 VDC, 7.5A
- Maximum roller shade size of 144"x144"
- Maximum capacity of 200 devices per complete QIS eco system
- (8) RJ-45 ports for motorized shades and switches and (2) Communication ports per Power and Communication panel

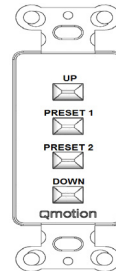

Control Options

- Hardwire control
- QdR Remotes
- RS485 Communication - 3rd party integration

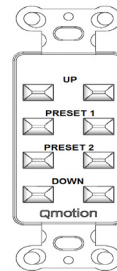

QMotion Benefits

- State-of-the-art patented manual override feature
- Industry leading 1/2" light gaps
